

Newsletter January 2015.

Tanka Tanka Foundation wishes everyone a healthy and prosperous New Year. The hospital is step by step better. We have a lot of patience and hope you have too. We are and remain dependent on donations. There is again a paint job and the suckaway of the men's department and the laundry should this year be truly replaced.

In October this year we have received 400 euros from a foundation, unfortunately we could identify no address, but we want to thank these generous donors. We are very happy with it and assure you that the money will be well spent. The outdoor kitchen with help from Emma Boeve is almost done, great. We are also pleased that so much interest is in working in Tanka Tanka for a few months

New action for this year include:

- * Bandages and wound care training (Mireille) There are now 200 new medicine boxes route to Tanka Tanka
- * Crisis Staff Training
- * Training addiction and separate housing for about 30 beds, so a drug rehabilitation program can be given.
- * Use a multipurpose room as prayer, but which can also be used as a family room. The space is there, just the decor is still missing.

We want all donors of Tanka Tanka thank for their efforts in any form whatsoever, great that you can last with us.
